

Help North Atlantic Right Whales!

What You Can Do:

Keep Watch

Endangered right whales visit our waters year-round. Swimming close to shore, they can be difficult to spot. Stay alert and look out for whales!

Slow Down

If you see a right whale, slow down. Vessels 65 feet or greater in length must travel 10 knots or less in Seasonal Management Areas:
www.greateratlantic.fisheries.noaa.gov/shipstrike.

Move Away

Stay at least 1500 feet (500 yards) away from right whales-it's the law. Be cautious when transiting areas where are whales present.

Report Whales

Report right whale sightings and any whales in distress to NOAA Fisheries Greater Atlantic Marine Animal Reporting Hotline 866-755-6622 or to the Coast Guard on Channel 16.

White Markings On Head

No Dorsal Fin

V-Shaped Blow

All Black, Smooth Tail

Paddle Shaped Flippers

REPORT RIGHT WHALE SIGHTINGS: 866-755-NOAA (6622)
