As do recreational boaters (voters)!

Captain Bill –

In Massachusetts, the public has a legal right to waterfront access – but that right is in jeopardy.

A bill quietly making its way through the state legislature would allow private property owners to prioritize their own private interests over the public access they're required to provide by law.

Call Massachusetts House of Representatives Speaker Robert DeLeo and tell him to kill this bill, H.4505, before it's too late.

617-722-2500

The public spent billions to clean up Boston Harbor – and the public should be able to partake in the benefits of that effort.

For too long, private interests have been given free rein at the expense of Bostonians like you and me. It's time to let our legislators know that we expect more from our elected officials and our city.

Tell Speaker DeLeo: H.4505 would set a dangerous precedent that could wall off waterfront access for the public. This bill must be stopped.

Thank you for all you do for a better, brighter future for Massachusetts. We couldn't do this work without you.

TAKE ACTION

Onward,

Deanna Moran
Director of Environmental Planning
Conservation Law Foundation

CLF is a member-supported nonprofit organization that protects New England's environment for the benefit of all people. We use the law, science, and the market to create solutions that preserve our natural resources, build healthy communities, and sustain a vibrant economy.
